2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 26 and 27 are rejected under 35 U.S.C. 102(b) as being anticipated by Chandra et al. (USPN 4,903,296).

Regarding claim 26, Chandra et al. disclose a magnetic recording media for a storage device comprising:
non-recordable regions in the magnetic recording media (column 13, lines 15-17); and
recordable regions in the magnetic recording media, wherein the coercivity of the non-recordable regions differ from the coercivity of the recordable regions (column 13, lines 25-28).

Regarding claim 27, Chandra et al. disclose a storage system, comprising :
a storage disk having recordable and non-recordable regions, wherein the
recordable and non-recordable regions are both magnetic and are defined by different
magnetic properties on a recording layer on the storage disk (column 13, lines 14-16);
and
means for reading from, and writing to, the recordable regions on the storage disk
(column 13, line 17).

5. The following is an examiner's statement of reasons for allowance:

Regarding claims 1 and 14 the primary reason for allowance is the inclusion of the step of exposing the mask and the expose portions of the recording layer to a plasma, wherein the magnetic properties of at least one layer in the exposed portions of the recording layer are changed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
